

Technical:

For this weeks technical exercise, we will be learning the 27 Points in Space fundamental. I've given you guys a full written explanation of the exercise, which can be found back on the main assignment page. I've also created a video to help explain the exercise a little more clearly.

Once you've mastered the exercise, you will create a video demonstrating your new skill. You will need to go through the whole exercise twice, the first time saying "both, left, right" and the second time counting the points. We are using the song Blinding Lights by The Weekend.

<https://www.youtube.com/watch?v=KAB0vC2RDww>

When your video is complete, please upload it to the SHS Guard google drive in the folder with your name on it. You will be receiving feedback on these videos.

Guard Drive: https://drive.google.com/drive/folders/1uUx0PtIkWmxQqmVYIK5oLCPyG_6KslQs

Observational:

For this weeks observational exercise, we will be watching two WGI Videos and writing a one page response to the videos. Links will be posted below.

Zydeco 2012
<https://www.youtube.com/watch?v=d8-0swPA73w>

Pride 2015
<https://www.youtube.com/watch?v=-ZrhIQYXHpA>

You will need to watch both videos all the way through.

Please write your paper in 12 point font with double spacing. Avoid repeating yourself and over use of filler comments like "the dresses are really pretty and thats why I like them." We are looking for unique view points and intellectual thoughts.

When you write your response, you will need to include the following points:

1. What were your favorite parts of the show and why? What do you think were the most effective design elements in the drill staging and choreography and why?
2. What were these shows about? How did they incorporate that theme and message into their different elements? (i.e. uniforms, floor design, props, choreography, individual performance)

3. Do you believe these shows were challenging for the performers to learn and achieve? What about these shows makes them difficult, both on an individual basis and as a team? Do you think it took team work to create the finished product? Why?

For all of your responses, you will need to include specific examples, and cite them with the time they occurred in the video.

Your response papers will be submitted to seminolehsguard@gmail.com

IMPORTANT!! Your email must be sent with your name, grade, and “week 2 observational” in the subject line. If we don’t know who is sending the email, you can’t get credit for attendance.

Performance

For this week’s performance activity, you will be learning a choreography phrase on your own.

I’ve got two tutorials for you to pick from. You only have to do one. I encourage you to choose one the you think best matches your skill set.

Hard:

<https://www.youtube.com/watch?v=xJs7xEFu4P8>

Easy:

<https://www.youtube.com/watch?v=KLRhb704VnQ>

When you are done working through the videos, you will film yourself doing the dance you just learned!

This is the *performance exercise* so it is more important the we see a conscious effort to be performing and making your videos entertaining to watch then it is for you to get all the steps right.

When you’ve finished your video, you will upload them to our SHS Guard google drive in the folder with your name on it.
