Pack this toward the top of your carry on, so it's easy to pull out. (Only pack necessary liquids – the rest need to be packed in your checked bag)

1. Don't over-pack. Travel as lightly as possible.
2. Leave plenty of room in your suitcase for all of the things you will bring home.
3. Make a list of things to bring and check the list before you leave home.
4. The hotel rooms do NOT have wifi. There is only wired internet in the rooms. (Check online to see if there is an Ethernet cable in the room, if not you will need to bring one with you if you want to set up your own computer or wifi capability in the hotel room.)

[Suggestion: DO NOT BRING YOUR LAPTOP! We will not be in the rooms except for sleeping.]
